

### Fields of Science classification

|      |                       |    |  |
|------|-----------------------|----|--|
| I.   | agricultural sciences | 1  | veterinary sciences                                    |
|      | agricultural sciences | 2  | animal breeding sciences                               |
|      | agricultural sciences | 3  | food sciences  |
|      | agricultural sciences | 4  | forestry and wildlife management sciences              |
|      | agricultural sciences | 5  | plant cultivation and horticultural sciences           |
| II.  | humanities            | 1  | philosophical sciences                                 |
|      | humanities            | 2  | literary and cultural sciences                         |
|      | humanities            | 3  | art history and cultural history sciences              |
|      | humanities            | 4  | art sciences   |
|      | humanities            | 5  | ethnography and cultural anthropology                  |
|      | humanities            | 6  | educational sciences                                   |
|      | humanities            | 7  | linguistic sciences                                    |
|      | humanities            | 8  | psychological sciences                                 |
|      | humanities            | 9  | historical sciences                                    |
|      | humanities            | 10 | religious studies                                      |
| III. | theology              | 1  | theological studies                                    |
| IV.  | engineering sciences  | 1  | agricultural engineering sciences                      |
|      | engineering sciences  | 2  | material sciences and technologies                     |
|      | engineering sciences  | 3  | bio-, environmental, and chemical engineering sciences |
|      | engineering sciences  | 4  | architecture sciences                                  |
|      | engineering sciences  | 5  | civil engineering sciences                             |
|      | engineering sciences  | 6  | mechanical engineering sciences                        |
|      | engineering sciences  | 7  | computer sciences                                      |
|      | engineering sciences  | 8  | military engineering sciences                          |
|      | engineering sciences  | 9  | transportation and vehicle sciences                    |
|      | engineering sciences  | 10 | electrical engineering sciences                        |
| V.   | arts                  | 1  | architecture   |
|      | arts                  | 2  | film and video arts                                    |
|      | arts                  | 3  | applied arts   |
|      | arts                  | 4  | visual arts  |
|      | arts                  | 5  | multimedia arts  |
|      | arts                  | 6  | theatrical arts  |
|      | arts                  | 7  | dance and movement arts                                |
|      | arts                  | 8  | music arts   |
| VI.  | medical sciences      | 1  | health sciences  |
|      | medical sciences      | 2  | theoretical medical sciences                           |
|      | medical sciences      | 3  | pharmaceutical sciences                                |
|      | medical sciences      | 4  | clinical medical sciences                              |
|      | medical sciences      | 5  | sports sciences  |

University of Pécs Doctoral Students Association  
Outstanding Scientific and Artistic Scholarship

Annex no. 5.

|       |                  |    |  |
|-------|------------------|----|--|
| VII.  | social sciences  | 1  | legal sciences                         |
|       | social sciences  | 2  | business and organizational sciences   |
|       | social sciences  | 3  | military sciences                      |
|       | social sciences  | 4  | economic sciences                      |
|       | social sciences  | 5  | public administration sciences         |
|       | social sciences  | 6  | media and communication sciences       |
|       | social sciences  | 7  | political sciences                     |
|       | social sciences  | 8  | regional sciences                      |
|       | social sciences  | 9  | criminal sciences                      |
|       | social sciences  | 10 | sociological sciences                  |
| VIII. | natural sciences | 1  | biological sciences                    |
|       | natural sciences | 2  | physical sciences                      |
|       | natural sciences | 3  | earth sciences                         |
|       | natural sciences | 4  | chemical sciences                      |
|       | natural sciences | 5  | environmental sciences                 |
|       | natural sciences | 6  | mathematics and computational sciences |
